## Learning to Read God's Green Lights

*Divine timing often comes with inner confirmation, not just external opportunity.*

### Watch for these signs:

- Opportunities that feel “right” in your spirit vs. those that just look good.
- Unexpected doors opening when you weren't pushing.
- Recurring themes or confirmations from multiple sources.
- Inner peace about moving forward despite some uncertainty.
- Provision appearing as you step forward.

### Practice:

Document these patterns when you see them for future discernment.

## Gift Expression

*Use Your Light to Transform Someone's Day*

*Your light is meant to transform others' lives, not build your reputation.*

**Choose your spiritual gift:**

Teaching, encouragement,  
service, leadership, mercy, etc.

**Find one opportunity  
today** to use this gift to  
brighten someone's day.

**Focus on  
transformation:**  
How can your gift  
meet their specific  
need?

**Give without agenda:** Serve them,  
not your platform.

### Weekly practice:

Write down how God has been orchestrating circumstances.

Unexpected connections, divine appointments, resources appearing, doors opening.

Your emotional/spiritual response to these orchestrations.

### Review monthly:

What patterns do you see in God's timing?

*You'll know you're ready for Room 6 when:*

- You're consistently recognizing and responding to God's timing.
- People are being transformed by your light when you shine.
- You're feeling the strain of carrying your vision alone and need sustainable support.
